FERNANDO UTIZI

FRONT-END DEVELOPER

I am self-taught in programming. I am passionate about **technology**, creativity and learning. I enjoy working with **teams** and I also have abilities about **teaching-learning** processes.

I have a solid capability to adapt to new situations and **challenges**.

I am committed to **improving** my skills and offering great user experiences.

EXPERIENCE

-  Trémolo: guitar school (2023)

Independent work developing the website. I did designing and laying out the site with React, React Router, and SASS. I also created the backend for registration schedules using Google Sheets. Currently, I'm **responsible for maintaining** the website.

STUDIES

Technician Degree in Computer Science (2023-in course)
Universidad Nacional del Sur

React - Hooks router redux next + Proyectos (Udemy).
Instructor: Nicolás Schurman

I have been a self-learning programmer since february 2022. Also, I graduated as music teaching at the Bahía Blanca Conservatory (2018-2023) and I am currently teaching individual and group classes

PROJECTS
